

LET'S LEARN WITH GREEN

PROJECT RESULT 1

Project GREEN is an Erasmus+ Program-funded initiative, whose main objective is to revolutionize the educational field by setting a milestone in terms of sustainability training. The partnership conformed by 6 European partners, is committed to promoting the green transition, creating sustainable action plans and inspiring the adoption of innovative strategies that respect the environment.

Based on the European Green Deal and the New European Bauhaus, Project GREEN presents you with a **free training course** available on the project website in 5 languages: <http://green.paigar.es/>.

HOME BACKGROUND RESULTS NEWS TEAM CONTACT

On the website, you will see individual tabs, where you will learn basic information about the project, its goals, outputs as well as the project partners. Go to **RESULTS** and scroll down. Then, click on the **"Training Course"** tab:

Check out our training course!

Training course

Click on the **"log in"** box and discover the GREEN training course.

1. Go through the six different modules -

On the GREEN online platform, you can complete all modules at once or choose the one that most interests you thematically.

The training module contains clear and reinforcing information on individual topics, which are supplemented by external links for a deeper insight.

After completing the course or your chosen GREEN module, don't forget to answer the quiz questions and send us your feedback.

2. Case Studies -

Read 12 inspiring and insightful case studies which are available in the modules as well as in a separate tab of the GREEN course.
