### PROJECT OVERVIEW AND OBJECTIVES

The GREEN partnership brings the expertise of a range of entities from different EU countries to help develop the project results thus, transcending national identity. The partnership consists of adult training providers, municipalities, one social enterprise experienced in developing novel pedagogic tools as well as private entities experienced in Green practices, sustainability, the circular economy, and ICT.

The project brings innovation through the unique set of partners from different backgrounds and EU member states, with the aim of forming synergy that will help deliver the GREEN project results that will have an effective impact on adult trainers, SMEs, and training stakeholders/communities, local and regional authorities.

The project also seeks to introduce new collaborative structures between SMEs, adult educators, professionals, the general public, and local/regional authorities, thus, strengthening norms and values with the objective of improving the capacity of individuals, businesses, and communities for innovation in efficient resource use.
